PAGE 6: TELL US WHAT YOU THINK

<p>Q10: CURRENT SYSTEM OF COUNCIL TAX: To what extent does the current system of council tax deliver a fair and effective system of local taxation in Scotland? Are there any features of the current system that you wish to see retained or changed? Please illustrate your answer with any examples from your own experience.</p>	<p><i>Respondent skipped this question</i></p>
<p>Q11: REFORM OF LOCAL TAXATION:Are there alternatives to the current system of council tax that you think would help to reform local taxation in Scotland? What are the main features of these, and why do you think they would deliver improvement?Do you have any examples of why this is the case?</p>	
<p>I'd like council tax to be replaced with a local land value tax. It is fair to tax the unearned increases in the value of land that occur when the council improves the services. For example, the people of Edinburgh paid for the trams, and developers holding land near the tramline saw an increase in the value of the land. It's fair that that increase comes back to Edinburgh Council. I also strongly agree with Andy Wightman's report on Land Value Tax. http://www.andywightman.com/docs/LVTREPORT.pdf</p>	
<p>Q12: LOCAL PRIORITIES:How well do you think that communities’ local priorities are accounted for in the way that local taxation operates at the moment? If there is room for improvement, how should things change?Do you have any ideas or examples about how this could improve people’s lives?</p>	<p><i>Respondent skipped this question</i></p>
