Tell us what you think

We have not provided a long list of questions, but we do want to hear what you have to say about some themes. Please respond to as few or as many as you wish. If you would prefer to send us other information, please feel free to do so. However, it would be helpful to keep your response to no more than eight pages.

If you are able to, please provide evidence or examples in support of what you say. This will help us explore your ideas further.

1. SCOTLAND'S CURRENT SYSTEM OF COUNCIL TAX

To what extent does the current system of council tax deliver a fair and effective system of local taxation in Scotland? Are there any features of the current system that you wish to see retained or changed?

You may wish to illustrate your answer with examples from your own experience.

My preference would be for a system of local taxation, as I believe a linkage to income would be farer.

If Council Tax is to continue a review is require of the banding and the number of bands. Also, widespread revaluations are needed as the present valuations do not reflect current prices.

I feel period valuations & banding reviews (5 or 10 years) should be statutory and not a political decision. Please provide your response here

2. REFORM OF LOCAL TAXATION

Are there alternatives to the current system of council tax that you think would help to reform local taxation in Scotland? What are the main features of these, and why do you think they would deliver improvement?

Do you have any examples of why this is the case?

PI would prefer local taxation linked to Income Tax - see above. lease provide your response here

3. LOCAL PRIORITIES

How well do you think that communities' local priorities are accounted for in the way that local taxation operates at the moment? If there is room for improvement, how should things change?

Do you have any ideas or examples about how this could improve people's lives?

I am sceptical about how representative local taxation of local needs. Please provide your response here

4. FURTHER INFORMATION
