### PAGE 6: TELL US WHAT YOU THINK

**Q10: CURRENT SYSTEM OF COUNCIL TAX: To what extent does the current system of council tax deliver a fair and effective system of local taxation in Scotland? Are there any features of the current system that you wish to see retained or changed? Please illustrate your answer with any examples from your own experience.**

I write with a major concern about the future funding , and associated democratic accountability for Sport and Physical Recreation in particular, and Cultural Services in general.

Around 23 Leisure Trusts have ben established over the past few years. These have been set up using one of 3/4 governance structures. They have been set up, largely a) to avoid non domestic rates, and b) to reduce VAT payments.

In theory these "arms length organisations" from are seen as not part of the local authorities. Often these organisations have very limited accountability to local communities - and indeed have been criticised by the Audit Commission. It is not clear in many cases what contracts have been established for these trusts - and indeed if there is a mechanism in local authorities to adequetly monitor their operations.

Things are compounded by very limited statutory requirements of local government for sport and and physical recreation. And now we note that not any Key Permonance indicators for Sport.

Could it be that the time has come to think through these arrangements at the time when local taxes are being considered?

**Q11: REFORM OF LOCAL TAXATION:**Are there alternatives to the current system of council tax that you think would help to reform local taxation in Scotland? What are the main features of these, and why do you think they would deliver improvement?Do you have any examples of why this is the case?

Given that so much of the sport agenda is carried out by volunteers in the community - should we not consider "capacity building" in the community become a statutory requirement of local government?

Currently the trusts , and indeed local councils are frquently concerned with raising money from the volunteers - by increasing charges for facilties or through offering low level sports classes.

Some of the programmes being offered by Trusts and Councils could easily be run by private sector organisations.

Maybe local taxation could be used to develop a better system?

**Q12: LOCAL PRIORITIES:**How well do you think that communities' local priorities are accounted for in the way that local taxation operates at the moment? If there is room for improvement, how should things change?Do you have any ideas or examples about how this could improve people's lives?

As above
