PAGE 6: TELL US WHAT YOU THINK

<b>Q10: CURRENT SYSTEM OF COUNCIL TAX: To what extent does the current system of council tax deliver a fair and effective system of local taxation in Scotland? Are there any features of the current system that you wish to see retained or changed? Please illustrate your answer with any examples from your own experience.</b>
When the council tax was introduced there were to be regular revaluations. I would like to see a quinquennial revaluation followed by indexing the property values between revaluations in order to ensure a fair taxation base. In addition there should be more tax bands at the higher levels.
<b>Q11: REFORM OF LOCAL TAXATION: Are there alternatives to the current system of council tax that you think would help to reform local taxation in Scotland? What are the main features of these, and why do you think they would deliver improvement? Do you have any examples of why this is the case?</b>
I believe that a property based taxation system is fair and easy to administer
<b>Q12: LOCAL PRIORITIES: How well do you think that communities' local priorities are accounted for in the way that local taxation operates at the moment? If there is room for improvement, how should things change? Do you have any ideas or examples about how this could improve people's lives?</b>
There should be greater devolution of power and responsibility to local level because urban and rural areas have different priorities
<b>Q13: FURTHER INFORMATION: We would like to keep the conversation going. Please tell us about any events, networks or other ways in which we could help achieve this.</b>
I attended the Scottish Rural Parliament and I am pleased to see that this will continue
